3. Rules Of Competition

INTRODUCTION

Participants are required to unravel real-life issues through coding.

Participants should tackle the most significant conceivable questions in indicated time interim in the most proficient way. The programming aptitudes of members would be tested in this competition.

STRUCTURE OF COMPETITION

1. It is a 2 round competition:

First round will be an elimination round consisting of 30 MCQ solved in 30 min.
Second round will consist of 5 coding question solving in 2 hour time, 2 questions will be of easy level, 2 of medium and 1 of hard level.

2. Participants will use coding to solve extremely tricky mathematical problems that can't be solved by using a calculator.

CODING PLATFORM : HackerRank

SCORING :

Each domain on HackerRank (i.e. Algorithms, Artificial Intelligence, etc) has its own leaderboard.

A user's rating and overall position in the leaderboard is calculated from their performance in the rated contests of that domain.

For leaderboards in Practice Tracks, a user's position in the leaderboard is calculated based on the total points they have scored in that domain.

ELIGIBILITY :

All students with a valid identity card from their respective branch are eligible to participate in the event.

RULES OF COMPETITION

- 1. Each participant has to register online on the official Techfest website for the competition.**
